1. Overview of Services

Formity Labs LLC ("Formity", "we", "us", or "our") provides tools for developers to build advanced multi-step forms using React. These tools include:

- **UI Kit:** A downloadable set of pre-built React components designed to help developers create multi-step forms efficiently.

These services are designed to be used together.

2. Use of the UI Kit

You may:

- Use the UI Kit components in personal or commercial projects
- Modify the code to fit your use case

You may not:
